Head Protection & Accessories

Bullard Hard hats

Take a look at the Bullard Advanced Series for certain jobs require higher levels of head protection than conventional hard hats provide. The Advanced series helmet afford the user with impact protection to the sides of the head as well as the top.

Vector

Providing impact protection for the top, front, back and side of the head, Vector is lightweight, comfortable and affordably priced. This advanced hard hat complies with ANSI Z89.1-2003 Type II, as well as CSA Z94.1-2005, Type II head protection standards.

Cap-style helmet

Polyethylene outer shell

Provides impact protection from all directions: top, front, sides and rear

EPS foam impact liner

Available in either 4-point Flex-Gear® or self-sizing suspension

Accepts variety of accessories including faceshields and hearing protectors

Features: 4-point suspension, replaceable, moisture wicking Sportek® brow pad, built-in goggle strap retaining slots

Advent

Advent is designed especially for industries such as forestry, oil and gas drilling, emergency rescue, and others where there is high risk or lateral and overhead impacts, including those resulting from falls. Advent's revolutionary design meets or exceeds current head protection standards for ANSI Z89.1-2003, Type II, E and G.

Cap-style helmet

Thermoplastic outer shell

Provides impact and penetration protection from all directions: top, front, sides and rear

No rear brim

Flex-Gear® ratchet headband for quick sizing and secure fit

Accepts variety of accessories including faceshields and hearing protectors

Ventilation channels molded into helmet

Features:

8-point suspension

Replaceable pillowed brow pad

Comfortable crown pad

2-point permanently attached chinstrap with quick-release buckle (Model A1)

3-point permanently attached cradle chinstrap with quick-release buckle (Model A2)

911C and 911H for High Heat Environments

To meet the demands of high heat environments, Bullard produces the 911 Series of hats and caps in technologically advanced thermoplastic materials. In fact, these helmets are molded in the same grade of Ultem material used in the Bullard Wildland, PX and FH911H fire helmets. The 911 Series meets the ANSI Z89.1-2003 Type I, Class E and G standard for head protection.

Constructed from the same materials as our rugged firefighter helmets. Ideal for utilities, welding, foundries and steel mills. Available in full brim (911H) or cap style (911C). Available with Flex-Gear® ratchet sizing or standard six-point suspensions for comfort and convenience.

Features: - 6-point suspension - replaceable, moisture wicking Sportek® brow pad
