

Cansorb is an all organic hydrocarbon absorbent, manufactured from high quality large fibre Sphagnum Peat Moss. This manufacturing process produces a product which becomes both oleophilic, absorbing hydrocarbons and hydrophobic, repelling water. Due to its fibrous structure and our processing, Cansorb absorbs hydrocarbons quickly on contact by virtue of its wicking action and encapsulates oil on contact, this makes Cansorb idea for hydrocarbon clean up both on open water and land applications. Cansorb absorbs, on average, eight times its weight. This volume will vary based on the hydrocarbon being absorbed and the temperature.

### Cansorb Works Naturally

Nature has given unique properties and ingredients to our Sphagnum Peat Moss. In it's natural state the fibre contains 40%-60% water, however this fibre has the ability to absorb 20%-40% more water and will do so on contact due to its porous nature. When Cansorb is dehydrated (activated) to 10%-12% MC a wax (bitumen) is released to the surface from deep in the pores. This wax coats the outside of the fibre, resulting in the fibre resisting water within and allowing hydrocarbon absorption.

### Compressed Bales (CB)

Cansorb offers some of the greatest value in the industry with our compressed products. Compressed at approx. 1.5 : 1 ratio this allows us to provide value without compromising the quality of the compressed fibre. The bales can easily be broken down into our disbursement barrels.

PRODUCTS	PACKAGING	YIELD	ABSORPTION
CS-CB 18	2 CU. FT. COMPRESSED BALE/18 LBS.	3 CU. FT./85 L	APPROX. 20 GAL

### Loose Filled Bags (LFB)

This product is packaged for easy deployment. This ease combined with the compact size allows for one time use and storage in situations where space is limited and larger barrels and bales are prohibitive.

PRODUCTS	PACKAGING	YIELD	ABSORPTION
CS-LFB-10	4 BAGS PER BOX/APPROX. 10 LBS EA.	1.5 CU. FIT/42 L	APPROX. 10 GAL
CS-LFB-5	8 BAGS PER BOX/APPROX. 5 LBS EA.	.75 CU. FT./2.1 L	APPROX. 5 GAL

### Socks (S)

We offer 3.5 inch diameter socks in both 48 inch and 96 inch lengths. These socks are filled with our Cansorb particulate and we offer them in polypropylene casing.

PRODUCTS	PACKAGING	YIELD	ABSORPTION
CS-PS-96	10 SOCKS PER BOX	17 L EA.	APPROX. 3 GAL EACH
CS-PS-48	20 SOCKS PER BOX	8.5 L EA.	APPROX. 1.5 GAL EACH

Cotton Casing available on request. Minimum order 250 units per size

### Pillows (P)

We provide pillows in two cost effective sizes - 12" x 12" and 12" x 24". Our pillows are filled with Cansorb particulate and we offer them in polypropylene casing.

PRODUCTS	PACKAGING	YIELD	ABSORPTION
CS-PP-12	32 - 12" X 12" POLY PILLOWS PER BOX	4.2 L EA.	APPROX. .75 GAL EACH
CS-PP-24	16 - 12" X 24" POLY PILLOWS PER BOX	8.5 L EA.	APPROX. 1.5 GAL EACH

### Spill Kits

CS-SPILL-15/CS-SPILL-8 - These kits provide emergency spill response for up to 15 or 8 gallons in a soft refillable vehicle pack.

CS-SPILL-20 - This kit provides emergency spill response for up to 20 gallons in a refillable drum for industrial use.

PRODUCTS	KIT INCLUDES:
CS-SPILL-8	1 X CS-LFB 5; 2 X CS-PP48; 2 X CS-PP12; 2 Disposal Bags; 2 Pair Safety Gloves
CS-SPILL-15	3 X CS-LFB 5; 1 x CS-PS-96; 1 x CS-PP-24; 2 Disposal Bags; 1 Pair Safety Gloves; 1 Pair Safety Goggles; 1 Reuseable Spill Kit Bag
CS-SPILL-20	4 x CS-LFB 5; 2 x CS-PS-96; 1 x CS-PP-24; 2 Disposal Bags, 2 Pair Safety Gloves; 2 Pair Safety Goggles; 1-32 Gallon Drum

### Bilge Booms

PRODUCTS	PACKAGING	YIELD	ABSORPTION
CS-BIL	36 PER BOX/APPROX. .75 LBS EA.	4" X 1 FT.	APPROX. .75 GAL

Are molded from virgin and recycled cellulose fibres that have been specially treated to absorb oil and repel water. It absorbs eight-times it's weight with no leaching and will float for weeks, up to 10 months.

### Accessories

PRODUCTS
CS-SB-32 GAL / 145 LITRE STORAGE BARREL
CS-SCOOP - DISBURSEMENT SCOOP
CS-SFS - POLYPROPYLENE SPARK FREE SHOVEL
CS-SAMPLE - APPROX. 1 LITRE CANSORB SAMPLE

## Performance Oil Absorbent Pads | Economy Oil Absorbent Pads

[Oil Absorbent Pads - High Performance- Dimpled - Bonded -White](#)

Oil absorbent, bonded oil absorbent pads and rolls are appropriate for use in traffic areas and low lint applications. Repels water based fluids and absorbs oil based fluids. Suitable for industrial and environmental applications for quick absorption of oil. Oil Absorbent Pads are one of our best sellers.

Low linting  
Bonded Oil Absorbent  
Heavy weight  
Strong
